

**International Conference on Interactive Digital Storytelling  
ICIDS 2020  
3-6 November 2020,  
Bournemouth, UK**

**CALL FOR DEMOS**

Demo submissions are short papers (4 pages in length including references, in Springer LNCS format: <http://www.springer.com/computer/lncs?SGWID=0-164-6-793341-0>) describing working, presentable systems that may be installed as part of the conference demo session. Your paper should describe the relevance of the work to the interactive digital storytelling community, its significance and use within the field, and an overview of its design and development. Demo papers will undergo peer review and should be anonymized to remove author names and affiliations.

Demo submissions must be submitted via email to [icids2020demos@gmail.com](mailto:icids2020demos@gmail.com) by ~~June 42<sup>th</sup>~~ **June 26<sup>th</sup>**. In your email, please also outline any accommodations that you will need to install your demo at the conference (e.g., requirements pertaining to space, physical setup, technology, etc.). Submissions may also include a link to an executable version of the demo or other documentation, such as video or images, but this is not required. These materials may be included as attachments or as links in the email including the submission.

Successful demo submissions require at least one author/developer to register for ICIDS 2020 and to present the demo in the demo track. In the event that the conference needs to become virtual due to the COVID-19 crisis the author must be able to demonstrate the submission online or in a video. The Demo proposal will be included alongside the research papers in the conference proceedings published by Springer. Times and dates of the demo presentation session within the conference will be confirmed closer to the date.
